

## Smooth Cotton Sonora

### GSCS

The ILFORD GALERIE Smooth Cotton Sonora - manufactured exclusively from cotton fibres - lends images a particularly intensive impression due to its lightly structured surface. The pleasant, soft haptic and the natural white colouring of the paper correspond to that of traditional art print paper. It is predestined to produce dramatic art prints, reproductions, artistic photos, exhibition prints, posters, exclusive invitations and interior decorations in colour or in black and white.

#### FEATURES

- Smooth surface
- 100% cotton
- Free of optical brighteners

#### PRINTER & INK COMPATIBILITY

#### PHYSICAL PROPERTIES

Weight	320gsm
Opacity	99%
Caliper	490 Micron (19 mil)
Tint	97,6   0,4   3,8
OBA Content	NO
Acid Free	NO
Additional Information	

#### HANDLING TIPS

Finished prints should be interleaved and stored carefully to prevent scratching. FineArt paper prints are typically more delicate than conventional resin coated (RC) papers such as Pearl, Glossy, Lustre surfaces and should be handled with additional care. Before printing please check that there are no loose paper fibres or debris on the media surface as this may lead to print errors. As with any FineArt media using raw paper it is possible that some debris may exist.

ILFORD have taken great care to ensure that in general our papers are free from loose paper fibres, but please check before you make the final print. Cotton gloves are recommended to avoid contaminants getting onto the surface.

#### STORAGE

It is recommended that you store your paper in the original product packaging/boxes. Products must be stored in a cool, dry environment away from direct sunlight. Optimal storage and Operating conditions are 15–25°C, 35–65% relative humidity, non-condensing.

#### AVAILABILITY

Available in sheets and rolls. For more details please see the product page on [www.ilford.com](http://www.ilford.com).
